GOLD MOUNTAIN FIREWISE CONTRACTOR LIST FIRE FUEL REDUCTION AND GROUND MAINTENANCE

The Gold Mountain Homeowners Association, as a service to all homeowners in Gold Mountain provides the following Firewise Contractor List. This list is in no way a recommendation regarding work performance or reliability of any contractor. It is the Associations recommendation that owners solicit references from potential contractors before having any contractor perform any services. Association policy prohibits Directors, Officers, or employees from recommending, endorsing or promoting the services of any contractor. Owners are not limited to hiring contractors on this list.

Please Note: Prior to commencement of major hazardous fire fuel reduction or clearing projects, it is strongly recommended that Gold Mountain property owners or their contractors meet with a volunteer member of the Gold Mountain Firewise Committee. The purpose of this onsite meeting and non-professional consultation is to provide guidance that will reduce the risk that projects will be implemented in a manner that fails to comply with the Hazardous Fuel Treatment Standards that have been adopted by the Gold Mountain Homeowners Association. In all cases, our joint goal is to preserve the natural beauty of Gold Mountain while taking prudent steps to reduce the risk of devastating wildfire damage.

This consultation is not necessary for routine or recurring maintenance of hazardous fire fuels done by property owners.

To schedule your free onsite consultation with a member of Gold Mountain Firewise, please contact the Community Services District (CSD) Administrative Manager, Leslie Chrysler at CSD Offices. You can reach Leslie at (530) 832-5945 Ext 2, or by email at info.GMCSD@gmail.com Leslie will take your contact information and ensure that you receive a return call from a Gold Mountain Firewise representative.

Please allow sufficient time for a consultation appointment to be arranged.
